Create a Healthy and Active Lifestyle

Good health is the foundation for a happy and full life, both at work and at home. Your medical plan options are designed to fit your lifestyle and your budget, so you can stay healthy all year long. A summary of each plan option is listed below.

Overview of Medical Plans

Quantum Health/Blue Shield of CA PPO, HDHP & EPO

MyQHealth Care Coordinators provide support through benefits advocacy, provider curation, clinical navigation and health concierge services powered by the Blue Shield of CA network. Available plans under Quantum Health/Blue Shield of CA are:

- Preferred Provider Organization (PPO): gives you the flexibility to choose any provider. You do not have to select a primary care physician to oversee your care or give referrals. Keep in mind that benefits are highest when using an in-network provider. After you meet the annual deductible, the plan pays a percentage of your covered expenses. Once you meet the out-of-pocket maximum, the plan will pay 100% of your covered services for the remainder of the year.

- Exclusive Provider Organization (EPO) in various locations excluding Southern California, Wisconsin and Upstate New York: With the EPO you can receive care from any in-network provider you choose. You do not have to choose a primary care physician, and no referrals are required to receive care from a specialist. Co-pays are required for office visits and inpatient care, and most other services are covered at either 100% or 80%. Services from out-of-network providers, except for emergencies, will not be covered.

- High Deductible Health Plan (HDHP) with a corresponding Health Savings Account (HSA): gives you more control over your health care dollars. Since you are responsible for 100% of all covered services until you meet the annual deductible, your HSA will help you cover your out-of-pocket costs. Once you meet your deductible, the medical plan will generally pay 80% for in-network covered services (60% out-of-network) until you reach the annual out-of-pocket maximum, at which time the plan will pay 100% of covered services. Learn more about the HSA on Page 6.

Health Maintenance Organization (HMO) Plans

Mattel offers several HMO plans to eligible employees in Southern California, Western New York, Middleton and Deforest. The HMOs provide coverage through a specific network of doctors from which you select a primary physician who oversees your medical care and gives referrals to specialists when needed. Co-pays are typically required when you receive services. You must use the HMO network unless you have an emergency and are outside of the HMO service area.

Prescription Drug Coverage

All of Mattel’s medical plans come with prescription drug coverage. Covered medications are grouped into tiers or categories:

- Generic medications (Tier 1) are just as effective as their brand-name counterparts at a fraction of the cost. Save money by asking your doctor to prescribe generic medications if available.

- Brand name medications (Tier 2) are covered at the co-pays listed below as long as a generic equivalent is not available. You will pay a higher price if you choose a brand-name medication over the generic drug.

- Non-Formulary medications (Tier 3) include drugs that are not on the preferred list of medications. Below are the in-network prescription drug benefits for each medical plan.

Dental Coverage
We’re the experts in bringing smiles to kids, and our employees’ smiles are just as important.

You have two dental plan choices: Delta Dental PPO Plan and Aetna DMO Plan.

• With the Delta Dental PPO plan, you are free to choose any dentist at the time you need care. Plan benefits are highest when you use an in-network dentist.

• With the Aetna DMO, you must use an in-network provider for your dental care. There are no annual deductibles or maximum benefit allowance, and preventive care is 100% covered. You will be responsible for copays based on the service you receive. Aetna will provide enrollees with information that explains exclusions, limitations and the full range of covered services under the plan.

Note: Aetna may not be available in all locations.

Vision Coverage
Mattel offers vision coverage through VSP because it takes healthy eyes to see all those tiny Barbie accessories! VSP vision coverage offers a wide network of optometrists and vision care specialists. You’ll save money by visiting VSP in-network providers.

Additional Health Benefits

Health Care Flexible Spending Account (FSA)
Mattel offers a Health Care FSA as a smart and easy way to stretch your benefit dollars and receive tax savings. Each year, you have the opportunity to enroll in the FSA and contribute pre-tax dollars up to the IRS maximums through payroll deductions. Use your FSA funds to pay for eligible medical, dental and vision expenses. Funds must be used by March of the following plan year. Unused funds will be forfeited.

Health Savings Account (HSA)
Enrolling in the Quantum Health/Blue Shield of CA HDHP gives you the opportunity to lower your taxable income by setting aside funds for health care expenses in a health savings account. Contribute pre-tax dollars up to the annual IRS maximum through payroll deductions. You can use this money to pay for eligible expenses, and you’ll earn tax-free interest on unused funds.

With the HSA, you keep all the funds you contribute. Unused funds rollover each year. Use your HSA funds to pay for eligible medical, dental and vision expenses. Keep in mind that you must be enrolled in the Quantum Health/Blue Shield of CA HDHP to be eligible for the HSA. Employees enrolled in the HSA may also set aside pre-tax dollars in a Limited Purpose FSA (LPFSA) for eligible dental and vision expenses only.

Fertility Services
Beginning or growing your family is exciting and at times, overwhelming. All benefits eligible employees and their spouse/domestic partner, regardless of enrollment, are eligible for reimbursement for infertility treatment. Eligible expenses will be reimbursed at a coverage level of 80% of the allowed amount to a maximum lifetime benefit of $15,000 per couple. All available medical coverage must be used before expenses can be reimbursed.

Eligibility
Benefit eligible employees must be at least 20 years old to be eligible for PIP. You can begin contributing on the first day of active employment.

Each April, all employees who are not participating in the PIP will be automatically enrolled, and employee contributions of less than 6% will be increased by 2% of eligible pay until the contribution rate is 6%. You will be notified 30 days in advance and can opt out if you choose.

Vesting Schedule
You are always 100% vested in any contributions you make. You become vested in Mattel's contributions after three years of service.

PIP Advice
The investment choices you make will play a key role in the future value of your account. Mattel offers several fund options with varying levels of potential risk and return from which you can choose to invest. Employees can take advantage of Online Advice for investment recommendations or Professional Management services if you want a team of experts to look after your retirement account.
